watch tutorial video
http://www.vimeo.com/131859102

1 Open desired psd
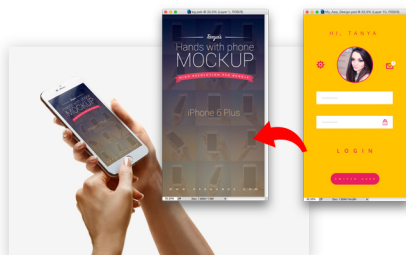

2 Select smartobjet screen of the phone layer

3 You can doubleclick on thumbnail Or select "edit contents" with RMB

OR you can "Replace contents" with your app design, but your app design dimensions px must be the same as in smartobject
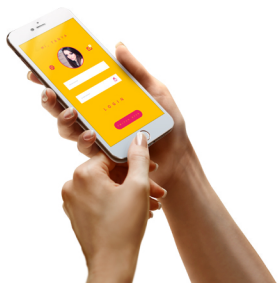

4 Once "dummy" is opened you can replace it with your app design by dragging layers or with commands:
1) **Cmd+A**(select all)
2) **Cmd+shift+c** (copy merged)
3) **Cmd+v** (paste) in smartobject

5 Save & Close and done!
